PUBLIC LEDGER

WEEKLY REPUBLICAN—1887.
DAILY PUBLIC LEDGER—1899.

MAYSVILLE, KY., MONDAY, MAY 20, 1907

ONE COPY—ONE CENT.

AN APPEAL FOR EXPLANADE.
Like the prairie bare and lone,
Or the ocean flecked with foam,
Like the Arab's arid home
Is our "Square."

Why not make it cool and sweet,
Fitting park for friends to meet.
Let the trees a welcome greet
And shade to share?

Birds and flowers should cheer our sight,
When from out the glare and light
We would seek the fountain bright
And crystal clear.

Time is not for war and strife;
Crime and greed and hate are rife,
Let us lead the simple life;
Begin it here.

Let each youth secure a tree:
Ladies, plant the flowers so free;
Each man his blessed task will see
To plant a tree.

Hospitality was never more enjoyed in a more delightful environment than Saturday, when the Nomad Club was entertained by Mrs. Lucien Melby of Washington. The beautiful home and spacious grounds, supplemented by perfect weather conditions, were factors in the day's pleasures and the delicious luncheon added its quota but it was the genial cordiality, the genuine hospitality of Mr. and Mrs. Melby, Mrs. Goggin and Colonel Melby, that will mark the day ideal in the social life of the Nomads.

Cedar Hill, the old Colonel Goggin home, has been in the family some sixty years.

Mr. Melby has recently bought and improved his grandfather's place, and by the additions has given it a Colonial type that has greatly enhanced its beauty and comfort.

In improving the old home, so replete with memories and associations, a place where his mother lived as a girl, a place where she was married over fifty years ago, where as a small boy he followed that helved grandfather, Colonel Lucien Goggin, about the farm, Mr. Melby has done the thing of all others, which that mother and that grandfather would most approve.

MUTUAL BENEFIT

An Association to Provide Against Sickness and Accident

The employees of the Ohio Valley Pulley Works have organized a Mutual Benefit Association for the protection of its members against sickness and accident.

The movement is a commendable and worthy one, and the wonder is that it has not been put into practical operation long ago.

At a recent meeting the following officers were chosen—

President—Thomas Lock.
Vice-President—John Girvin.
Secretary—Fred Dresel.
Treasurer—Miss Violet Graham.

The society now has a membership of 90, all employees of the Pulley Works. The weekly dues have been placed at 10 cents and the sick or disabled benefits at \$4 per week. One has to be a member for thirty days before being entitled to benefits.

As an incentive in well-doing Messrs. Brown contributed \$50 to the treasury of the young organization and will lend moral aid and encouragement to the up-building and advancement of the young organization.

THE LEDGER is not informed as to the regulations and by-laws by which the Association will be governed, but presumes it is amply provided for in such matters.

It has been intimated that further along membership will be received from other workshops in the city of those desiring to become members of the Pulley Works Association. It is a movement in the right direction and will redound in great good, if properly managed and conducted.

Success to you, gentlemen.

We can safely say that we are doing the shoe business of the town, we mean the GOOD shoe business of the town. Of course there is a reason for it. When we went into the market to buy Men's and Boys' Shoes we looked for the best—we looked for shoes that we could guarantee. Our lines are the Hanan, W. L. Douglas and Walkover. There is not another shoe house in Kentucky whose stock comprises these three lines; nor is there another shoe house in Kentucky that guarantees the shoes they sell.

The Weather is Coming Right

For Panama and Yacht Hats, White and Fancy Vests, Summer Underwear, Negligee Shirts and Summer Neckwear. In all of these lines we show the newest and best. Owing to the backwardness of spring we have lately bought of a manufacturer a line of Spring Suits at about 60 cents on the dollar. See them in our clothing window. They will speak for themselves. We have them in all sizes.

WHILE Mr. COREY avoided the hoodoo, 13; will he escape "23" for his early finish?

NOWADAYS the longer it takes to summons a Jury the shorter time it requires to disagree or acquit the defendant.

SENATOR FORAKER is now in imminent danger of having his address changed from Washington to "23" Skiddoo street, Sinsinaty. Wow!

A PRESIDENTIAL boom that can't take care of itself is no boom at all. The Taft boom is one of the healthiest kind of booms, and is self-supporting and dirigible.

THE Bourbon News says that Jockey DANNY MAHER's income is between \$200,000 and \$500,000 a year. That sounds extravagant, and is enough to make a poor newspaper man quit editin' and seek a job in DANNY's class.

It is said that it cost "Steal Trust" COREY \$4,000,000 to get rid of his first wife and buy his way to MABELLE GILMAN's heart. The best evidence that COREY is a senseless old roue, is that his own mother still sticks to wife No. 1 and gives MABELLE the cold shoulder.

THE Chicago man who gave six reasons why he killed himself, was not rational or he would have hearkened to the other 'steen thousand reasons why he should have lived. But as "there is an unseen battlefield in every human breast," the Chicago felo de se, doubtless, knew his own business best.

Ohio is also having a fight over the local option proposition. The Supreme Court of the state now has before it the Martin-Doering case from Cincinnati, in which the validity of the Jones local option law is attacked.

THINGS are coming Lexington's way and the old scores are being evened up as time rolls on. Fifty families moved from Louisville to Lexington in one day recently. If this rate keeps up the population of Louisville will be depleted to an alarming extent and the owls and the bats will soon roost in the Seelbach and the Armory.

"Out of the nettle danger, we pluck the flower safety." Out of her penitentiaries Kentucky is reaping a handsome profit. Thus murder, arson, robbery and all the horrid crimes in the calendar, are made a source of revenue to the state. Of course, the rake-off is the rankest sort of tainted money, but all money looks alike in Kentucky, and we're all glad to get any old kind.

THE Directors of the Standard Oil Company declared a quarterly dividend of \$9 per share. This compares with a dividend of \$15 declared three months ago. This is equivalent to \$24 a share for six months, and any one can figure out the enormous profits earned by the company. It is not to be wondered at that JOHN D. ROCKEFELLER gives his millions so lavishly, and it is "come easy, go easy," with him. But, the Steel Trust is even a greater money-maker than Standard Oil.

THEN THERE WAS SILENCE.

"George," she said, "before we were married you were always giving me presents. Why don't you ever bring me anything now?"
"My dear," replied George, "did you ever hear of a fisherman giving bait to a fish he had caught?" Then the kettle boiled over.

After the ceremony there was a nuptial supper at the home of the groom's parents where the happy couple were the recipients of many presents and the congratulations of their many friends.

PROVED FATAL

Was the Death of Henry Lightfoot the Result of An Accident?

Henry Lightfoot, colored, died Saturday afternoon from the effects of burns received by the upsetting of a coaloil lamp at his home in Elizabeth street, Sixth Ward, Wednesday night, an account of which was published in Thursday's LEDGER.

There seems to be a mystery enronnding the affair and various stories are told tending to place a mere serious aspect as to how the deceased came by his injuries.

At the time of the occurence Mrs. Lightfoot was at the home of her mother, and the father and an eighteen-year-old son were the only ones present and know exactly of the circumstance enronnding the explosion or whatever may have caused the fatality.

It has been reported to an officer that quarreling was heard in the house a short time before Lightfoot appeared in the yard and rolled on the sward in an endeavor to extinguish the flames.

Apparently there is enough in the case to cause a searching investigation that the facts may be brought out. If it was purely an accident, all well and good; if not the truth ought be known.

Lightfoot carried an insurance on his life for \$40.

Women Avoid Operations

When a woman suffering from female trouble is told that an operation is necessary, it, of course, frightens her.

The very thought of the hospital, the operating table and the knife strikes terror to her heart.

It is quite true that these troubles may reach a stage where an operation is the only resource, but a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after an operation has been decided upon as the only cure. The strongest and most grateful statements possible to make come from women who by taking

Lydia E. Pinkham's Vegetable Compound

made from native roots and herbs, have escaped serious operations, as evidenced by Miss Rose Moore's case, of 307 W. 26th St., N. Y. She writes:

Dear Mrs. Pinkham:—Lydia E. Pinkham's Vegetable Compound has cured me of the very worst form of female trouble and I wish to express to you my deepest gratitude. I suffered intensely for two years so that I was unable to attend to my duties and was a burden to my family. I doctored and doctored with only temporary relief and constantly objecting to an operation which I was advised to undergo. I decided to try Lydia E. Pinkham's Vegetable Compound; it cured me of the terrible trouble and I am now in better health than I have been for many years.

This and other such cases should encourage every woman to try Lydia E. Pinkham's Vegetable Compound before she submits to an operation.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Started in ten races and was never behind the money but once. He is standard by breeding, by record, and by produce. He was a race horse, and is the sire of race horses, and roadsters. One of his colts won last season ten months out of twelve starts. This mare stepped a mile last year in 2:10, half in 2:01. Having accidents she will go in 2:08 this year. While he never served a mare with a record he has three in the 20 list. Three of his colts have sold for \$1,000 each. Twenty have sold for from \$500 to \$1,000 each. He is a good saddle horse and the majority of his colts make good saddle horses, if given the opportunity. They all have size, action, and color, go high and sell the same way. He is 16 hands high, full made and weighs 1,200 and is standing at the low fee of
